GRANDMOTHER GIVES LIFE TO SAVE DAUGHTER'S CHILD; MOTHER FEARFULLY HURT

"Angel" Strikes Woman In Tunnel; Mrs. Wenig Killed; Mrs. Coakley In a Critical Condition; Baby Tossed Thirty Feet Was Uninjured.

SMOKE AND NOISE OF PASSING FREIGHT CAUSE OF ACCIDENT

HEROICALLY STRUGGLE TO GET BABY CARRIAGE OUT OF DANGER

One woman dead, another fearfully maimed, and an eighteen-months-old baby tossed thirty feet and uninjured, are the results of a horrible accident that occurred near the Richmond entrance of the Santa Fe tunnel yesterday afternoon at 4:47 o'clock, when Mrs. Caravel Wenig and Mrs. Jerry Coakley, with her little daughter, Helen, in a baby carriage, were struck by the passenger train, "Angel."

Mrs. Wenig, a San Bernardino resident, the mother of Mrs. Coakley, was killed almost instantly, her left leg and arm being severed and her body otherwise badly mutilated when the train passed over her. Mrs. Coakley's left arm was mangled so badly that it had to be amputated near the shoulder and her skull was fractured at the base. It is feared that she has other injuries internally and it is doubtful if she will live.

Helen, Mrs. Coakley's little daughter was in a baby carriage when the train struck the party and was tossed against the tunnel embankment and fell to the ground with

ATTORNEYS TOLD TO FILE BRIEF IN HALL SITE CASE

OPINION EXPRESSED THAT QUESTION NOT PROPER ONE FOR REFERENDUM

That the Richmond city hall site question was not a proper one for a referendum was openly expressed by one of the judges this morning during the hearing on the subject before the Appellate court in San Francisco, is the report received here by telephone at noon today.

The hearing came up this morning after a postponement from last Monday, the attorneys for the defense of the city councilmen, among whom are City Attorney Hall, filing an answer to the amended petition for a writ of mandate.

The amended petition asked that the city council and city clerk of Richmond be instructed to submit the question to the voters at the next regular election. The answer of the defense set forth that the city had already accepted the offer of a city hall site from the Harbor center company; that the city council had not refused to call an election as required by the city charter when a petition of 25 per cent of the voters is presented, because the only petition received by it had

JELLY FIRM WANT FACTORY SITE IN RICHMOND BEFORE CANNING SEASON

H. JONES & COMPANY OF HOBART AUSTRALIA, SEEKING A FACTORY SITE HERE. WISH TO ERECT FACTORY TO COST \$300,000.

Searching for a site on the east side of the bay, preferably in the vicinity of this city, H. N. Jones & Co., Limited, of Hobart, Tasmania, before the next fruit season, will erect a jam and jelly factory that will cost \$300,000 before a can of jam is produced.

H. J. Jones & Co. Limited, are the largest manufacturers of the sort in the world, with factories at Melbourne and Sydney, Australia, at Hobart, Tasmania, and near Cape Town, South Africa. The capital of the company is \$5,000,000 in American money.

"Mr. Jones was in California not long ago," said A. J. Cox, the San Francisco representative of the concern, yesterday, "and I have just received word that \$300,000 has been set aside for the development of the canning business here. California knows how to can fruit and vegetables to perfection and we know the jam and jelly and marmalade business as the English know it. The field is wide open, and we propose to go into the American market."

WILSON ASKS NATION TO BE CALM

WASHINGTON, Aug. 3.—President Wilson today appealed to the people of the United States to remain calm during the war in Europe. He declared the United States owes to mankind to help the rest of the world during the present crisis.

The President declared the United States could gain great and permanent glory during the present trouble, providing no one lost his head. There is sure to be inconvenience to the financial institutions of the country, he told the callers, but added that the administration is fully prepared to help out all difficulties. He argued that no credence be given to unconfirmed reports of a sensational nature.

The president declared there was no cause for any serious alarm in the United States. A proclamation of neutrality, Mr. Wilson said, will be issued as soon as it can be completed by the State Department. He does not believe there will be any necessity for Congress to remain in session because of the situation in Europe.

President Wilson told callers today the United States had not directly or indirectly made any offer to use its good offices to bring about peace in Europe. He said he had not heard of a suggestion by the Queen of Holland that the United States unite with her country to offer mediation.

THEATER OF WAR SEEMINGLY AT DOORS OF CITY'S HOMES AS RESERVES ANSWER CALL

STOCKHOLM, SWEDEN, AUG. 3.—A BATTLE WAS FOUGHT YESTERDAY BETWEEN THE GERMAN AND RUSSIAN FLEETS OFF THE ALAND ISLAND, AND RESULTED IN THE RUSSIANS BEING DRIVEN BACK. THE RUSSIAN WAR VESSELS TOOK REFUGE IN THE GULF OF FINLAND, WHERE THEY STILL REMAINED TODAY.

POTENTIAL FOES MEET DAILY HERE WITHOUT CLASHING

RICHMOND'S COSMOPOLITAN GREATLY STIRRED BY EUROPEAN STRIFE

Clashing of the fighting men of the principal countries of Europe on land and sea was brought closely home to the people of Richmond today when residents of this city, some of them now United States citizens, but of foreign birth, left to report at the various consulates in San Francisco to answer the call of their mother countries for soldiers to defend the flags that fly over the lands of their birth.

With the entrance of Germany and France into the fearful struggle for victory, with every means known to the trained science of soldiering, the theatre of war was drawn to the doors of almost every Richmond home, for where before there was no general acquaintance of residents with the people of the Austrian and Serbian nations, there are few of the Americans who do not have friends among the British.

SOCIETY WOMAN BEING HELD IN PARIS BY WAR

MRS. J. C. BLACK, WIFE OF STANDARD OIL CONSTRUCTION ENGINEER, UNABLE TO RECEIVE FUNDS WITH WHICH TO RETURN TO AMERICA.

PARIS—After today no foreigner will be permitted to leave France without special permit. Washington may be asked to send transports and money to French ports to take away Americans. Big Paris hotels closing. Foreigners besiege railroad stations to escape capital.

With the issuance of the following order by the French government it is probable that the Americans now in Paris will have to wait until some sort of an international agreement can be arranged whereby they may be permitted to return to this country.

Among the Americans that are now visiting in Paris is Mrs. J. C. Black, wife of the construction engineer of the Standard Oil refinery.

On last Friday Mr. Black received a letter from his wife asking that he send sufficient money to her that she might pay her transportation to this country. Black immediately went to an express office where to his dismay he was informed that no expressing of money could be carried on between America, Germany or France until some later diplomatic agreement.

Mrs. Black, although a resident of Berkeley, is well known in this city and her friends are worrying to a considerable extent in regard to her safety.

LAUNDRY MAN GIVES LIFE TO SAVE FRIEND FROM DEATH

FRANK COUSTE EMPLOYED AT HOME LAUNDRY IN THIS CITY DROWNED OFF ANGEL ISLAND YESTERDAY.

Heroically sacrificing his life that the life of his married friend might be saved, Frank Couste, a Richmond laundry worker went to his death yesterday afternoon with the words: "You save yourself good-by." Couste accompanied by Bernard G. Pedersen of San Francisco, were fishing in a small boat off the north end of Angel Island when they were struck by a squall which capsized their craft.

Both clung for a while to the overturned boat until it became apparent that they were unable to escape.

PORT COSTA IS CONGESTED WITH GRAIN SHIPMENTS

ONLY ONE VESSEL OUT OF 50 DARES TO LEAVE HARBOR DURING WAR SCARE

Instead of the grain congestion conditions of Port Costa becoming better, it is daily becoming worse, state reports from the bay shipping point. There are over 50 grain vessels in the port which refuse to take on cargoes until something about the rate of war insurance is known.

Daily 200 carloads of grain, barley and wheat of the biggest crop ever harvested in California, are being poured into the Port Costa granaries, until there is now danger that there will be no place to store the shipments still to come.

Only one vessel was ready to leave port this morning. This was the Duersey, with a cargo for Denmark. The Duersey is under the Danish flag and as this country has declared its neutrality in the European war, its commander intended to sail this morning for Europe with the hope of reaching the home

THREE ANSWER KAISER'S CALL TO FIGHT FOR GERMANY

So far as is known, H. J. Hoffman, William Fritz and Otto Mueller were the first German residents to answer the call to arms of their native country, Germany. Hoffman is the former proprietor of the Standard Millard parlor. Fritz for several months has been an employee of the Community Drug Company. Mueller is the proprietor of the hardware store of the same name. Mueller went to San Francisco yesterday to report to the German consul and Hoffman and Fritz left for the city this morning for the same purpose.

200 RICHMOND GERMANS MAY BE CALLED

THREE WELL KNOWN LOCAL TEUTONS REPORT TO CON- SUL IN SAN FRANCISCO

Fully 200 German residents of this city are liable to have to return to Germany to fight for their fatherland, according to Adolph Geiger, secretary of the Maennerchor society and president of the Herman Sons, the two big German societies in Richmond.

Geiger thinks that there are 25 or 30 Germans now here who are required by German military regulations to report at once to the German consul in San Francisco. This regulation makes it obligatory on every German citizen who is able-bodied to respond if a call for volunteers is issued. Geiger estimates that there are about 200 of these in this city. He is included in this class although he has already served three years in the German army and is nearly 50 years of age.

Geiger believes that almost all those required to respond to the call to arms at this time will do so, and even some of those who have become American citizens, so strong is their love for their native land. Geiger doubts that the German

THE TEMPTATIONS TO WAR

The apparent eagerness of the European populace for war, not only in the two nations directly concerned in the present disagreement, but in all the allies of the disputants, suggests a doubt as to the correctness of the hackneyed assumption that preparedness for war is the best assurance for peace. Does not the present situation in Europe indicate that preparedness for war is a constant temptation to war? Every one of the world powers across the seas, with the possible exception of England, wants a fight, and this not only means the kings and other rulers, and the so-called war-lords, but it actually extends to the rank and file and masses of the people themselves. Those European countries have been building up great standing armies and great navies for years, and have been going round in gold lace, brass buttons, clanking swords and waving plumes until they are fairly aching for a scrap and to fly at each other's throats. For years they have been swelling around with chips on their shoulders, daring anybody to knock them off and nothing short of war with somebody is going to satisfy their belligerence, and they don't care much who it is with.

If the United States had a fleet of 400 modern fighting ships, an army of 3,000,000 men and a military aristocracy which maintained itself by playing on the pride of the people, and Mexico, let us suppose, just for illustration, had a similar armament, would the patience of President Wilson and the sober counsels of the better newspapers have succeeded in averting a bloody war? Assuredly not.

The climax which has appeared in the relations of Serbia and Austria is not a matter of a day's impulse. It is merely symptomatic of the usual state of the European mind, which thinks war every day in the year. The naval rivalry of England and Germany, the cherishing of ancient animosities toward Germany by France, the constant distrust of every European nation for every rival with regard to Balkan matters—these and a score of similar tendencies show that the primary idea of patriotism in those nations is a yearning for military strife. With millions of men restive under arms and billions of dollars invested in equipment of war, it is but natural that the war spirit should hold itself in restraint only by a thread.

It is now a self-evident fact that preparedness for war is not by any means the best assurance of peace. Quite the contrary.

THE DOUBLE STANDARD

Asked by the Industrial Commission to give his view of the underlying reason for the widespread unrest, President Walker of the Illinois Federation of Labor replied at once that it was the "double standard."

No, not the double standard of sex morality, though that is bad enough. The standard which divides mankind into two distinct groups—one, a toiling group, expected to be content with wages just above the line of need; the other a smaller group composed of people who may or may not work but who are favored with riches far beyond their needs—riches due to privilege rather than to personal endeavor.

This double standard is as old as the other double standard which excuses in the male conduct which it severely punishes in the female. The weight of history, tradition and human experience is all in its favor, and there are many who believe it cannot be changed.

But society, thanks to a new conscience, is slowly changing the double standard of sex; changing it because clear-visioned men and women are coming to see that it is fundamentally wrong. And if it can change one double standard surely it can in time change the other. But it will take time.

Some people are now worrying that because of the wonderful crops the prices will be low. Dodgast a pessimist, anyhow. Let's see what else we can dig up to work about. Oh yes, — the prices may not be low, and in that case the farmers will have so much money they will glut the market with it and it won't buy anything.

A FRIEND IS WED

Last Friday Harry Orser, foreman of the Byron Times and formerly of this office, was married to Miss Loretta Adams, at Woodland, this county, and took a short honeymoon at San Francisco and elsewhere. Harry is a good deal to this editor like a son would be, because we sort of raised him. He learned the printing trade in our office in Colorado, and came to California because we did. He is a mighty good boy and will make the young woman who has hitched up in double harness with him a good husband. Harry always sent a part of his wages back to his mother, and any man that is good to his mother will be good to a wife. They called at this little 2x4 ranch on their way home to Byron a few days ago, and the lad was as proud as a boy, with his first pair of red-top and copper-toed boots. And well he may be, for the bride is as pretty a little bit of brunette femininity as one would meet up with in a month's travel. Bless you, children, and, as the old saying goes, "may all your troubles be little ones."

"PAT" FARLEY IS A-RUNNIN'

Among the candidates with opposition who stand a good fighting show of winning is W. S. Farley, running for County Surveyor. "Pat," as he is known to his many friends, is a good mixer and makes friends because it is natural for him to do so, whether he is running for an office or not. He has had a lot of experience in the business of surveyor, having for four years been the county surveyor of Alameda county. He was also city surveyor of Richmond for a term and is now city surveyor for the town of Concord. He lives at Stege with his family and is a property owner and taxpayer. At this early stage of the game it is impossible to make prognostications with accuracy, but it is perfectly safe to say that when the general roll is called Mr. Farley will not be at the tail end of the race, or within hailing distance of it.

One gallon at a time is all the liquor that may be shipped into Mississippi for one individual, and the old time soaks down there are declaring that the Declaration of Independence is a failure.

As the primaries draw nigh there is not many days left for Chet. Rowell and Francis Heney to think up new and terrorizing things to say about each other.

If Mr. Carnegie really wants to die poor, how would it do for him to simplify matters and accomplish his object quickly by endowing the stockholders of the New Haven railroad?

As much as we dispise a street corner ogler, in view of some of the feminine fashions that appear, a certain amount of sympathy is perhaps due to otherwise well behaved men who in a fateful moment lose ocular control.

Carranza says Huerta sold 100,000 acres to the Rothschilds for a cent an acre and got a commission of \$500,000 for making the trade. That is going some as a real estate transaction and beats even the records of the Richmond realty hustlers, which before this has broken all the world's records.

Now that the Mexican war seems to be about over without much bloodshed on our part, the new banking and tariff laws working smoothly and times getting better, with big crops and plenty of Uncle Sam's money to move them, it is hard to guess what sort of ammunition the reactionaries and standpatters will manage to rake up with which to get the usual stuff out of their poison glands.

It certainly looks gloomy from a war and peace outlook over in Europe. The recent assassination of the king and queen has brought about a state of affairs between Serbia and Austria that apparently nothing but blood and slaughter can efface. This in turn may involve the aid or interference on the part of Russia for Serbia, which in turn would involve Germany and maybe all the other powers.

1000 WOMEN ARE EXPECTED AT WOMEN'S MEETING

Distinguished women of nation and state importance will be speakers at the Republican Women's meeting which is to be held in Sequoia hall on Wednesday afternoon. Mrs. Knowland, wife of Congressman Knowland, is to be the guest of honor and is to deliver an address on social life in Washington. Over 1,000 postal cards inviting the women of Richmond to attend the meeting have been mailed.

Mrs. E. H. Shibley, past president of the women's civic club of Martinez, is to be another speaker as are Mrs. J. A. Soto, of Martinez and Mrs. W. R. Ormsby, of Walnut creek. Mrs. Cushing, president of the club, will introduce the speakers and preside at the meeting.

The meeting is to start at 2:30 o'clock and as there is rather a long program it is urged that all the women come early so it may be possible to hold an hour's social session, during which those present may meet Mrs. Knowland.

AVIATOR ARRESTED FOR GUN THREATS

Constable Moltoza, today served a warrant charging assault upon George Dalwight, an aviator, who on Saturday afternoon, attempted to take the life of Ivan R. Gates, manager of the California Aviation company.

The arrest of Dalwight was the outcome of a controversy which arose between himself and Gates with the result that Dalwight when approached by his employer Saturday afternoon drew a revolver and threatened to shoot.

CANDIDATES BALL IS WELL ATTENDED

More than 200 couple were in attendance at the Candidates' Ball which was held in the Maple hall at San Pablo on Saturday evening. The feature of the evening's affair was the grand march which was led by Supervisor Warren McBryde.

The committee which had charge of the floor were R. R. Veale and J. P. Arnold, floor managers, assisted by J. E. Moltoza and M. G. Aguilar and Forest Carlisle.

TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Backache or Bladder troubles you—Salts is fine for Kidneys.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases. —adv.

"My back pained me so at night that I had to walk the floor," says Mrs. Ethel C. Powers, of 240 Third St., Richmond. "I had blinding dizzy spells and headaches in the back and top of my head. Circles appeared under my eyes and I had no appetite whatever. In less than two weeks I fell off in weight from one hundred and thirty-six pounds to one hundred and eleven. A doctor said I had Bright's disease. It was at this time that I began using Doan's Kidney Pills. The kidney secretions became natural and I had no more pains across my back. I regained all my lost weight. Four boxes of Doan's Kidney Pills accomplished this wonderful cure."

Contra Costa County

In lieu of the usual county news page this week we are herewith reproducing an article on Contra Costa county from the big boost edition of the Byron Times, issued last week, which we commend to our readers as being not only highly interesting but conservative and truthful. The edition got out by Harry Hammond, publisher of the Times, is one of the finest things of the kind we ever saw, no matter where published or by whom. It is a magazine of 156 pages, handsomely illustrated and containing descriptive matter of every section of Contra Costa county. As a boost edition it has never been excelled, so far as we have ever seen, anywhere in California or the west. Charles S. Fee sent out twelve hundred copies of it to the Southern Pacific passenger agents all over America, with instructions to them to use it in their work of attracting attention to this section of California. This paper takes pleasure in congratulating Mr. Hammond upon this splendid work. It ought to be in the hands of everybody. The following is one of dozens which the magazine contains:

The year 1914 has been bright and productive for the splendid county of Contra Costa—one of the more notable and interesting of all the counties of the Golden State.

Because of the opening of the great Panama Canal, and the holding of the Panama-Pacific International Exposition in San Francisco during the year 1915, the future of this grand and glorious county is inviting to manufacturers seeking new and ideal locations; to investors, homeseekers, dairymen, fruit and horticulturists, alfalfa and vegetable producers; and to intelligent men and women seeking the most desirable home sections possible.

This county, with its cities, towns and communities, is most attractive for merchants, professional men and those appreciative of growing and developing conditions who are seeking locations wherein to establish themselves.

Exposition visitors from all parts of the world will visit Contra Costa county next year to look over the good things we have. Many of these people are coming to California seeking homes and investments in this wonderful new country. They will find their hearts' desire in some parts of this section of Central California.

In Contra Costa county the farmer will find one of the most ideal locations in the whole State. Here he can work out of doors in weather that is not too hot or too cold almost 365 days out of the year.

Here diversified farming and intensive agriculture prevail. Hay, grain, fruit, nuts, vegetables of all varieties, are especially profitable. Chickens and poultry of every variety are raised profitably—especially is this so, if you have land enough and raise your own feed.

Dairying is one of the great industries, especially in some parts of the

county where alfalfa can be raised without irrigation. In irrigated sections dairying is naturally highly profitable.

The demand for everything raised in Contra Costa is steady and active, with good prices prevailing. San Francisco, Oakland and Stockton provide great market centers for everything that can be produced. These markets are so close that freight and transportation rates by railroads, steam and electric, river steamers, and automobile truck service, are comparatively a small item.

It might be well to say that in the great Delta sections of Contra Costa the finest flavored vegetable products known to the world are procured, such as:

Asparagus, rich and luscious. Celery, unexcelled anywhere.

Irish potatoes, simply magnificent. Onions, strong and healthy.

Beans, of the finest quality. Corn, that is most profitable.

Beets, red and well flavored. Tomatoes, loved by epicures.

Cabbage, wins by a head.

And all varieties of garden truck grow abundantly when given proper care and attention.

It is a known and established fact that fortunes have been made in a single year by vegetable and produce growers in this county.

Fruits in Contra Costa county have established prestige because of richness and flavor. The following varieties show very satisfactory returns to orchardists, and the fruit industry in this section of California is only partially developed:

Apples, finely flavored.

Apricots, best in California.

Figs, delicious to taste.

Cherries, unexcelled anywhere.

Table grapes, splendidly sugared.

Peaches, ripened perfectly.

Pears, delicately appetizing.

Plums, a promising crop.

Olive, notable for quality.

Quinces, in active demand.

Berries grown in this county are known far and wide for their splendid quality and high market prices are obtainable for early products.

Blackberries, grow very large.

Raspberries, especially select.

Strawberries, large and juicy.

Some oranges and lemons are produced in this county, but no grower has attempted to make a commercial proposition from these products, although the climate in some sections is especially well adapted to citrus fruits.

Great quantities of dried fruits and products are shipped from this section, such as almonds, apricots, beans, pears, prunes, walnuts and peaches.

This county is noted as an almond producing center. Walnuts return excellent profit and profitable results.

Contra Costa county is known this year, 1914, as the \$50,000,000 county as shown on the tax assessment rolls. It may be readily understood, however, that the real values are in the neighborhood of \$150,000,000.

The assessments for the present year show an increase of \$4,000,000. The increases are mostly on property of the country where realty values have been on the increase in the past few years.

These figures are on what is known as the non-operative roll, of that property taxed for county purposes. The greatest of the values of property on the operative roll, or that taxed by the State under the corporation tax law, is the assessed value of the Oakland, Antioch & Eastern Railway, which is estimated at \$400,000.

Thus it will be noticed that Contra Costa is a county of opportunities. Ten years from now, or in 1925, it is but to be expected that the values of our county property will total an assessed value of \$150,000,000. Developments have but commenced. People of ability realize what it means to invest in land in Contra Costa, where land is comparatively cheap, as it is today.

Contra Costa County has a population of about 50,000; the banking institutions numbering fifteen, have deposits of millions of dollars; there fifty miles of electric railway in the county; seven Union High Schools, and five hundred miles of electric light and power lines.

The total land area of the county is 561,267 acres, with 500,000 acres in farms. The value of farm property has shown a steady annual increase, during the past ten years averaging 68.5 per cent.

In special short articles and tables in this edition figures showing the products and actual resources, as estimated this year, by expert statisticians and authorities, are given prominently.

AUSTRIAN DIES AT HOME LAST EVENING

Antone Jaseze, an Austrian, 27 years of age, residing in the Herman tract, passed away at a late hour last evening following a long standing illness.

The body was removed to the Smallwood undertaking parlors from which place the funeral will be held tomorrow morning.

The deceased was an employe of the Pacific Porcelain Ware company and is survived by a wife.

LOCAL RAILROAD PEOPLE FEAR FOR RELATIVES NOW IN EUROPE

A number of the local railroad people have friends and relatives in Europe at the present time over whom they are greatly worried. Among these is Ennis Buchanan, a Santa Fe brakeman, whose father is thought to now be in France, although he was last heard from in the Netherlands. Mrs. T. P. Power, wife of a Santa Fe fireman, also has relatives in France whose lives she fears will be endangered by the German-French hostilities.

On the other hand, the action of the commander of the British ship, Lord Lansdale, is directly the reverse. This ship has been pulled out into the stream and will remain there, the captain of the Lansdale says, until the European situation is changed. He refused to state whether he was acting under cable instructions received from England.

LAUNDRYMAN CIVES LIFE

(Continued from Page 1)

ent that it could not support the two. Couste became tired and he turned loose of the boat sinking from sight as he uttered the words: "Good-by."

Pedersen continued to hang onto the boat until he was rescued by Engineer Richards of the launch Albatross, who saw his plight and put off from the quarantine island to his rescue. Pedersen was almost overcome with fatigue when he was gotten into the launch and had to be resuscitated at the quarantine station.

Couste was 27 years of age and had lived in Richmond at the Rich-illieu hotel, for over a year. He was employed at the Home Laundry and is highly spoken of by his employer, Jack Best. Best knew nothing of the death of Couste until this morning when he was called up by the Record-Herald and informed of the accident.

A brother of Couste's, John Couste also a laundry worker, employed in Sausalito, is in Richmond this afternoon looking after his brother's personal possessions. Besides this brother there is another in Port Costa who cannot be located. Couste was a native of France.

Premontion of an accident that would happen to his employee is intimated by Best. He says he warned Couste, when told that he intended to spend Sunday fishing in the bay: "Be careful. Do not get drowned. It's always dangerous in a small boat on San Francisco bay." Couste replied to the warning: "Oh, I will." Couste's body has not yet been recovered.

VIM WILL PRESENT A FEATURE FILM

Perhaps one of the most thrilling stories which has been shown in this city for some time will be that of "A Wrecker of Lives," which is to be shown at the Vim theatre this evening.

The film, a \$10,000 production, is making its first appearance in Richmond under the Warner Feature Film company. The plot of the play centers about the theft of valuable papers from the office of General Graham, the tracing of which lead the authorities through many hazardous escapades.

JAP BOY PLAYS NEAR HORSE AND RECEIVES KICK

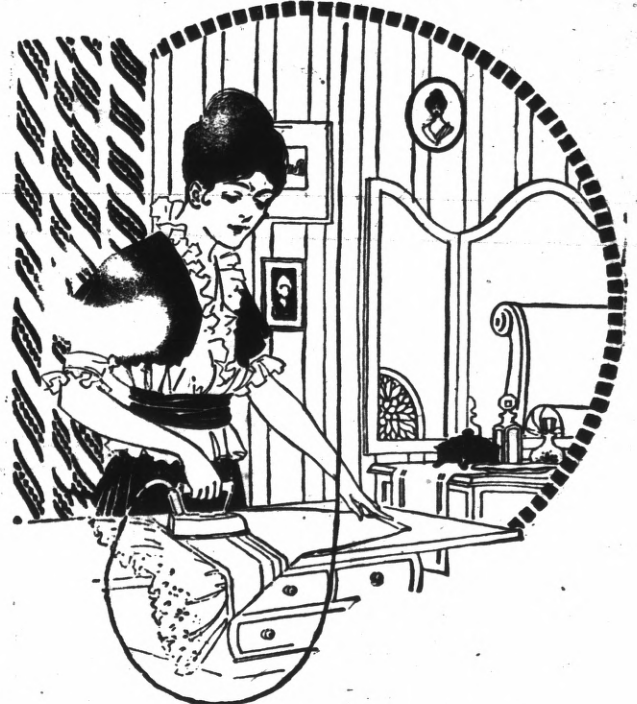

Chiu Eoy, the 14-year-old son of Samuray Eoy, a dairyman, residing at San Pablo, while playing about in his father's corral last evening was kicked in the head by a half broken horse.

The father, a short while later searching for his son, came upon him lying in the corral. He immediately bundled him into a rig and drove to the offices of Dr. Irwin March where several stitches had to be taken in the boy's head.

MINISTERS AND CHURCH PEOPLE PRAY FOR PEACE IN EUROPE

Like many of the other ministers in the bay cities, Reverend Calfee of the Wesley Methodist church yesterday spoke of the horrors certain to follow in the great European war. He declared the conflict that now seemed unavoidable was greatly to be regretted and that its ravages were apt to be felt in this distant land from the real seat of war.

In all Catholic churches the prayers of the congregation, that the war might be checked, were asked by the priests in all the parishes. This was in accordance with the directions of Pope Pius who is still striving to maintain peace in Europe.

Good Roads for Telephone Talk

THE good roads movement has not been confined to the highways. The Bell Telephone System has covered the country with "Good Roads" for telephone talk, reaching every nook and corner.

There are more than 12,000,000 miles of these "good roads" in the Bell System. Some of them are strung in single pairs or in aerial cables from pole to pole; others are hidden away in underground conduits; they cross lofty mountain chains; pass under mighty rivers and reach the heart of each industrial and commercial center of the nation and to the most remote habitations.

These "good telephone roads" of the Bell System are all operated by one system, under one policy, forming one continuous system of intercommunication. They connect more than 7,500,000 telephones for universal service.

CLUBHOUSE WORK IS PROGRESSING

Contractor Charles Johnson has a large staff of workmen erecting the handsome new home of the Richmond Club, in Nevins avenue, between Eleventh and Twelfth streets. The rear part of the structure is completed, and the structure will stand ready for the shinglers and plasterers. The building, designed by J. B. Ogborn, will cost about \$6,000.

Plans are being made for a two-day fair for October 8 and 9, for the opening of the new home.

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's recipe to bring color, lustre and thickness to hair when faded, streaked, or gray.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray, streaked and looks dry, wispy and scraggly, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the tonic; you can get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," ready to use. This can always be depended upon to bring back the natural color, thickness and lustre of your hair and remove dandruff, stop scalp itching and falling hair.

Everybody uses "Wyeth's" Sage and Sulphur because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time, by evening the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy, lustrous and abundant.

CHAT AND DOPE BASEBALL

"Slim" Nelson at one time the crackerjack twirler for the Oaks, also Pacific Coast comedian, and at the present time mound artist for the Alameda Alerts, was yesterday afternoon lacerated by the locals for five hits out of which a 3 to 2 victory was finally chalked up.

"Slim" might have lowered his hitting rates to ten but for one awful swipe which "Butcher" Woodbury made in the last of the sixth inning when with two and two he spat on his hands, braced his feet and stepping on a high breaking in-shoot lifted the sphere into the air which cleared the right field fence by a good ten feet.

Oh! it was awful.

Following in the wake of the "Butcher" came Sullivan who took quite a fancy to one of "Slims" splitters which he caromed down the first base line for a two bagger. From that time on until the first of the ninth Richmond had the game cinched, collared, and all their own way, when a rainbow loomed up for the Alameda squad over the mound occupied by Frank Gordon which before it had sunk into etheral space had allowed the Alerts to get three men on the bags. Bear in mind, fans, that this was the Encinal bays' last chance with the willow, that the score was still 3 to 2 in our favor but that they had the bases full.

Then the Guillotine Dropped.

And with its dropping severed the necks of three of the Encinal City's crack plate artists in rapid fire form. The first two men up made strenuous efforts to use the hit and run play but the ball would either take an easy bounce or else pop into the wide spread mitts of some Richmond player which would immediately end their existence.

"Slim" Nelson up," shouted the scorer. The Alameda team immediately held a short consultation while grouped about their bench out of which emerged "Slim" Nelson, but Hollywood considered the best pinch hitter of the team.

Gordon looked the newcomer over, shook his head in response to the signals of Cleek, his backstop, and then receiving one to his liking, he started his diabolical windup to which the "umps" rendered a "strike one" verdict. The three men on the bags each returned to their respective sacks, walked a few steps away again, spat on the ground and prepared for a double steal.

"Swat!" the sphere lit fair and square in the catcher's mit, "ball

one," whispered the umps. "That's a boy," shouted the coach, flinging on the third base line. "Watch 'em, Charlie." This line of talk directed at the runner on second.

Again the windup; again the swat of the ball as it collided with the catcher's glove, but this time a change, "strike two."

People in the grand stand and bleachers began to grow impatient, some rose and started for the gate, others leaned so far over that they came near going on down the steps and out onto the field.

Excitement High.

Gordon was puzzled, the batter crouched even closer to the ground. "Zip!" the pellet sped toward the plate where it crashed into the bat and taking wings soared high above the home plate. If it dropped fair, two men would have scored; if it dropped foul, well, that would be two strikes. The catcher whirled first this way and then that way and finally dove headlong at what he thought would be its lighting place. Spectators held their breath, the peanut vendors shut their mouths in amazement while the umps running to the spot raised his left hand with a foul ball exclamation.

Some more coaching from the coaches, some more jabbering from the fellows of both teams, some more discussing of the outcome of the game by spectators in the grand stand, some more buzzing and then another heave from Gordon. "Strike out," yelled the umps and with that the game ended.

The excitement ran so high following this event that Scorer O'Hara who prides himself on his cautious actions became so rampant that he forgot for the instant that he was an official and tossed his book into the air with the result that we are forced to give our readers only the following summary of the day's events:

Whirlpool

SANITARY
DISHWASHER
SEE WHAT SCIENCE
HAS DONE FOR ME

after 3000 years of kitchen drudgery. The much-needed rest of the Housewife has at last arrived. The invention of the

Whirlpool Sanitary Dish-Washer
saves health, time and nerves and preserves hands and complexion. At last

Woman's Emancipation
is here. A delight and an indispensable aid to those who have already used them. Just six minutes to clean, polish and dry the china, glassware and silver of a dinner for eight people.

No contact with hot water, steam or hot soapy soda. Self-cleaning, sanitary, no pump used. Small in size, easily lifted and carried. Strongly built of stamped metal.

Can be purchased on easy payments. Write for our plan.

It has a capacity sufficient to wash at one time all the dishes of the average family, yet is so light and portable that it can be easily moved from place to place.

The movement of the handle forward and backward revolves the propeller in the bottom of the washer, which dashes the hot soapy water with a swirling effect around, through and over all the dishes, forcibly attacking them at all points, and cleaning them with absolute perfection on all sides. The dishes are completely washed in less than one minute's time and the washer works so easily that a child can operate it.

Turning down the small lever at the top of the washer, opens drain valve and discharges the water in a few seconds. The dishes are then rinsed and sterilized by pouring a dishpan of clear boiling water through the lid and turning the handle about thirty seconds. The rinsing operation automatically cleans the washer itself, which always remains in an absolutely sanitary condition.

Beautifully illustrated booklet showing every phase of the Whirlpool Sanitary Dishwasher sent on request.

Thousands are being sold by leading stores in Philadelphia, New York, Chicago, St. Louis and other large cities. The Whirlpool enjoys a monopoly of the market, and furnishes agents the best opportunities for quick money making available anywhere.

ISLAND COUNTRY IS A VERTABLE GARDEN OF EDEN

NEW SECT WHO HAVE JOE KNOWLES PUSHED OUT OF SIGHT FOUND

Away out in the depths of Con-
tra Costa county a wayfarer has
discovered a new sect, a society, a
denomination, a party, faction.
They call themselves "Edenites,"
and thrive on anything that is sub-
stantial enough to whet their ap-
petites, as it were. The new gar-
den of Eden established in the re-
mote stretches of the island coun-
try has plenty of Adams, but no
Eve. As yet no women have es-
poused the new belief. There are
perhaps ten or twelve men in the
colony. Each nature man's ward-
robe consists of something less
than a bathrobe. The members of
the crew are as primitive in their
dress as the law will allow. In
their favorite haunts it is declared
that they wear nothing at all. They
believe that the world has put it-
self to a lot of trouble and an-
noyance that is unnecessary in ac-
cepting the story that man fell
from grace in the garden, and be-
coming conscious of his guilt, put
on clothing. They regard civilization
a failure for the reason that it does
not quiet the soul.

RIVER PIRATES VANISH BEFORE VIGILS KEPT BY SHERIFFS OF 2 COUNTIES

STOCKTON, Aug. 3.—The day of
the river pirates in San Joaquin
county is passing.
Reports from the island district
are to the effect that prompt and
efficient work on the part of the
sheriff's office of San Joaquin coun-
ty, coupled with generous activity
on the part of Sheriff R. R. Veale of
Contra Costa has routed bands of
mauraders who for a number of
years have lived off the rancher by
stealing everything in sight.
The Contra Costa law officer
maintains a patrol on the river.
With the pressing into service of
a motor boat during August the
sheriff's office here will be able to
cope with any emergency in the
delta as a man will be in charge of
the launch at all hours and must
have the same ready for instant
use.

MARTINEZ LOSES TIDELANDS TITLE

MARTINEZ, Aug. 1.—Martinez
holds no title to its waterfront, ac-
cording to the decision which has
just been handed down by Superior
Judge Mahon of Sutter county, who
presided here at the trial of the case
of the Town of Martinez vs. Wal-
lace and many other defendants in
which the issue was raised as to
the ownership of the large area that
lies between the upland and the
shore line.

The municipality has for years
clung to the claim that it was own-
er of its tide lands and to recover
them from private owners suit was
instituted over a year ago to bring
the issue to the courts. William
Wallace, who held to lands at the
further west section of the property
in dispute was made first defend-
ant. The others named were Mrs.
S. E. Rankin, A. E. Blum, Teresa
Pavolini, A. Bacelleiri, Southern Pa-
cific Company, California Transporta-
tion Company, California Transporta-
tion Company, Anthony Regiardo,
L. L. Anderson, Frank T. Swett, H.
N. Lances and Con., Louise Regiardo,
K. Demaggio, E. Bologna, P. Criv-
ello and others.

Judge O'Brien as special attorney
was engaged at a fee of \$5,000 to
prosecute the action with the aid of
City Attorney Leo F. Tormey.

W. S. Tinning, M. R. Jones, J. E.
Rodgers and others of counsel fig-
ured for the defendants.

Judge R. H. Latimer, who ap-
peared as one of the defendants,
had action against him dismissed at
the very onset of the trial. The
property has a present value, out-
side of the railroad holdings, of
about \$75,000. However its future
worth is much higher.

As yet the question of appeal has
not been determined by the city
trustees.

COWBOY INJURED BY BUCKING BRONCHO

One of the riders in the Irwin
Wild West show was thrown from a
bucking broncho at the First street
circus grounds yesterday afternoon
and had his right arm broken. The
rider is known to his companions as
"Spider Face Fly." He was taken to
the emergency hospital for treat-
ment, but had to be sent away to
secure medical assistance at some
other place as he arrived there just
as the victims of the tunnel acci-
dent were being brought in.

Another call from the San Pablo
hills for treatment for a man in-
jured by being thrown from a horse
was telephoned in at the same
time. This call was answered by Dr.
March.

GRANDMOTHER GIVES LIFE TO SAVE HER DAUGHTER'S CHILD

(Continued from Page 1)

scarcely a scratch upon her body. The baby carriage was demolished. Mrs. Wenig was 77 years old and the wife of a tinner in the employ of the Santa Fe at San Bernardino. Mrs. Coakley's husband is also a tinner, employed in the local Santa Fe shops and lives at 160 Fifteenth street. She is the mother of five children.

Was Visiting Daughter.

Mr. and Mrs. Wenig came here a few days ago for a visit with the family of their daughter. Yesterday the two women with the youngest Coakley child left the house for a pleasure trip to Kozy Kove, while the two men remained at home with the other children. When they started to return they came through the tunnel instead of climbing the Washington avenue hill. As they neared the end of the tunnel on the north side, a freight train headed toward the mole approached and they stepped on the track on the west side. The freight engine filled the tunnel with smoke and, while there were no eye witnesses to the accident, it is supposed they became confused by the smoke and thought the noise of the approaching passenger train was the departing freight, until the passenger train was almost upon them.

Struggle Heroically to Save Baby.

Then the two women made a desperate struggle to get the baby carriage off the track, according to statements of the passenger engine crew, Engineer C. C. Kennedy and Fireman J. L. Coffee. But they were unable to do so, and rather than give up their attempt to save the life of the infant, one of them, perhaps both, sacrificed her life.

Impossible to Stop Train.

Both the engineers claim that when they saw the forms of the women through the smoke in the tunnel they were only a short distance away. The brakes were applied at once, but it was impossible to bring the train to a stop until it was nearly to the Richmond station.

"The two women made a heroic attempt to save the baby," said one of the trainmen, "but it is doubtful if they could have got clear of the train, even though the baby carriage had been left upon the track and they had tried to jump to safety."

Baby Uninjured; Picked up by Porter.
Directly after the accident the body of Mrs. Wenig and Mrs. Coakley were removed to the Abbott emergency hospital where an examination showed that the older one was dead and the other frightfully injured. The baby was picked up by one of the train porters and was found to be unharmed, not even being dazed, but she was screaming from fright.

"That's Our Baby" Sobs Child's Sister.

Mrs. C. H. Cowan, who lives at 127 Tunnel avenue, was one of the first women to reach the scene of the accident, her home being on the hill above the tunnel. The baby was given to her and she carried it to her home, while the women were removed to the hospital. Later, Mrs. Cowan turned the little girl over to two men neighbors and they took her down on Richmond avenue in the hopes that some one could identify the baby. As the Coakley's live in another part of the town there was no one present in the tunnel after the accident who recognized the women or the child.

Shortly after the two men reached Richmond avenue a little twelve-year-old girl, Cora Coakley, recognized the child and beginning to cry, as she had heard of the accident, sobbed "Oh that's our baby." Almost instantly Cora turned away and ran toward her home, she being the first to notify Mr. Coakley of the death of Mrs. Wenig and the accident to his wife. It was almost two hours after the accident before the identification of the women was absolute.

Ordinance to Prevent Such Accidents Under Consideration.

An ordinance prohibiting trespassing on railroad tracks, the passage of which was requested by Lee D. Windrem, counsel for the Atchinson, Topeka and Santa Fe railroad, to stop the use of the Santa Fe tunnel as a roadway for pedestrians, has been under consideration by City Attorney Hall and the ordinance committee of the city council for the last four weeks. Objection was made that it should be altered so it would be permissible for people to cross the Southern Pacific tracks above the subway in

Scene From "Daughters of Men" at the Richmond Theatre Tonight.

FEATURE FILM AT RICHMOND TONIGHT

Those who attended the production of "The Gambler" and "The Lion and the Mouse" at the Richmond theatre during the past few months will welcome the news that a big five reel picture by the same author and entitled "Daughters of Men," is coming this evening.

The story is wound about one of the greatest strikes of recent years. It is full of human interest and is bound to please. It features the great card on for this evening and those who have heard of the book or read it cannot afford to be absent.

Although most of the moving picture houses charge extra for such a feature, the regular prices will remain the same at the Richmond. George Spencer, star of the Lubin company, has the leading part in this great production.

"A REWARD of \$25.00 is offered for the recovery of the body of Jas. George, who was drowned on July 29, 1914, between Port Costa and Crockett. The deceased was six feet in height, weighed 200 lbs., and was dressed in light gray trousers and shirt. Apply to H. W. & W. E. Meek Co." Aug 3 tf

CALIFORNIA HOME BUILDING CO. BUYS TRACT TO BUILD BUNGALOWS

Arrangements have been made by the California Home Building Company of Richmond, through the real estate firm of Richards & Stringer, represented by E. C. Gamble, whereby the California Home Building Company takes over 40 lots of land about in portions of Block 17 and 18 in the Bay View Park Tract for the express purpose of building 3, 4 and 5-room bungalows for immediate sale. The Company will put in sidewalks, fix up the streets, make all necessary improvements, and construct very attractive, cozy, up-to-date, modern bungalows.

It is the intention of the Company to make this one of the most attractive tract subdivisions ever presented upon the market in the Bay

section. It will be the first real step toward bungalow building on an extensive scale as the Company bought the lots not for sale as lots but to make all the necessary improvements thereon to help supply the great demand for small homes.

From a building standpoint this is one of the most important deals which has been transacted in Richmond, and it will have for its express object the increasing of the resident population of Richmond, and of showing what can be done in building attractive homes.

Operations in building will be begun on this tract of land in a very short length of time, and the tract will be made one of the little beautiful home spots of the City of Richmond.

NEGRO SWEARS A WARRANT FOR SILVAS

A warrant for the arrest of "Jimmy" Silvas, proprietor of the Curtis bar, located at the corner of Eleventh street and Macdonald avenue, was sworn out today by H. W. Bagette, a negro bootblack, who charged the saloon man with battery.

rainy weather. To make it effective in the case of the Santa Fe tunnel and permit use of the tracks in other cases, where the danger is not so great, has delayed the passage of the ordinance since.

Engineers Prophesied Accident.

At almost the exact time of the tunnel accident yesterday, Engineer Charles Hamilton of the Santa Fe was telling two men, in one of the hotel lobbies, of the many times he had to stop his engine in or near the tunnel to avoid running down people passing through it. He prophesied at the time that if pedestrians were ever caught in the tunnel when there were two trains passing through that they would be run

BIG PARTY RETURN FROM HUNTING TRIP

R. B. Dougall, of the Square Deal Hardware Company, and party, have returned after a ten days' hunting and fishing trip in the mountains of Mendocino county. They pitched their tent near the top of old Mt. San Hedron, right in the center of the sportsman, delight where fish and game abound in plenty. When fishing was indulged in it was the common rule for each one to return with the limit string of trout and four deer were secured, one 3-pointed, 1 spike and 2-forked horns. Mr. Dougall has the antlers of each on display at the Square Deal store.

THEATER OF WAR SEEMINGLY AT DOORS OF THIS CITY'S HOMES

(Continued from Page One)

Germans or French that must respond to the call for reservists.

Despite the character of the cosmopolitan population of this city there have been no clashes among the people of the different nationalities. Instead there is a cold feeling of reserve shown between them when they meet. Illustrative of this was an incident yesterday where two men, one of English birth and the other of German, both friends of long standing, sat quietly while all about them the excited speculations of others present were made as to the outcome of the great strife. Neither volunteered an opinion but remained silent as though looking into the near future when they may be arrayed as enemies upon European soil.

Another incident that attracted the attention of diners in one of the local restaurants yesterday was when two young, sober, thoughtful Germans walked in. Both were strangers, but almost before they were in the door they seemed to sense that the place was conducted by one of Slavonic birth. For a moment they hesitated as though to go out again, and then as though each read the other's thoughts they walked calmly to a table and ordered a meal from a waiter of a country with which they knew their native nation was at war.

To the observer, the serving of the two Germans by the waiter, their foe—at least potentially a foe—was fraught with prospect of excitement. But to those concerned, the ordeal was faced with an icy coolness, but with a consideration for the other, that seemed to change the atmosphere of the humble surroundings of the restaurant to that of conference meeting of opposing generals.

There was war excitement in abundance all over the foreign quarter of Richmond yesterday and last night, but it was not of the noisy demonstrative kind. It ran with the stillness of a deep stream, evidenced only in the gathering of little groups of fellow countrymen who scanned the English printed war extras. Or, as more often the case, listened quietly while some fortunate one among them who could read English, interpreted the contents of the newspapers.

Often this was a tedious affair, particularly among the Italians. In one instance a group of fifty Italians waited in the home of a countryman yesterday at the Point until nightfall for the return of a daughter of the family from her work so she could read the war news to them. As late as midnight she was laboriously pouring over the ten or fifteen editions while the Italians sat attentively listening. Although Italy has not yet been drawn into the war, the people in this little gathering were overcast with a depression that was as sombre as if they had been attendants at a funeral service.

PIONEER PASSES AWAY AT CLAYTON

MARTINEZ, Aug. 3.—Calvin Williams, aged 77, for twenty years a resident of Contra Costa county, died yesterday morning at 10 o'clock at Clayton. Williams was a retired farmer and has been making his home with a sister in Clayton. He was well known all over the county and he has been prominent in the early day development history of this county.

OLD FIRE LADDIES PROTEST TO CHIEF

From the general consensus of opinion that was aired at the meeting of the volunteer members of Fire company No. 1 Friday over the matter of discharging the old fire ladders will be a matter for the council to pass upon at its meeting. The majority of the members stated that they would not lay down their fire helmets and would continue to fight fire until further instructions by the city council.

vested discretionary power in the council; and that no binding offer of a city hall site had ever been received from John Nicholl. One of the contentions of the attorneys for the city was that if the city hall site was changed it would lay the city liable to many damage suits from people who had purchased property in the Wall tract with the expectation that the city hall would be built there.

After the reading of the answer by the attorneys the court instructed the attorneys of both sides to submit briefs this afternoon. Following the submitting of the briefs the Appellate jurists will either throw the case out of court, or set a date for further hearing.

down and probably killed. A few minutes after this conversation the accident occurred.

Funeral services for the burial of Mrs. Wenig will be held Wednesday morning at the Smallwood chapel.
